- Power Cord (UK) (PN#1550-602689G)

HT330 4-Slot Battery Charger

Quick Start Guide

V1.0

► Product View

► Power Connection

Plug the AC adapter cable into the power jack on the battery charger, and then plug the other end of the AC adapter into an electrical outlet.

Place the battery into the charger (with the model name and battery strap facing top), and the charger will detect the presence of batteries and initiate charging (LED-red light). If no detection occurs, no light will be displayed.

CAUTION!

- To ensure the unit working properly, please keep all connectors away from the contaminants such as dust, grease, mud, and water. Negligence may cause the unit to lose communication, short circuit, or overheated. If the connector is damaged, please ensure the connector is fully repaired before using the unit to avoid short circuiting.

► Checking the LED status

Power LED	Description
Solid Green Light	Power On
LED Off	Power Off
Charging Status LED	Description
Solid Red light	Battery is being charged
Solid Green Light	Battery fully charged
LED Off	No battery detection occurs
